10/20/67

Except for the phone bill, it was good to talk to you. Here is the clipping on the postponement of the trail you wanted. If your papers do not carry the International Herald-Tribune story quoting deGaulle as saying the cops were in the Kennedy execution, that Oswald was a patsy, that Ruby was a police informer, etc, I'll have it with me. DeGaulle did not plagiarize from WHITEWASH! He merely has an analytical mind. These were his conclusions on his return from the funeral. These were the things among thos that were obvious to me at the instant of the events and are some of those that got me into it. Some of his words are very close to mine. The ideas bracket perfectly. Perhaps this support may interest some of your people.

Parallax this a.m. got a supply of the books. They are checking to see if the Frisco wholesaler has any upon which you can draw (if he does, they'll phone him and okay it). If he doesn't, not fewer than 10 will go by air today.

I have sent word to Steve Burton, chairman of the Citizens' Committee of Inquiry, to phone you if anything goes wrong with the arrangements he was trying to make for me to address the UCLA students 11/15. I told him that if this is not fixed and firm before I get out there, to phone you and let you know so that I can spend that entire day in Frisco, going to LA that night or the next a.m. Gotta use all the available time as seems most profitable. It now looks as though a second trip will be required! That would be very good, if it is possible.

The Citizens' Committee is a group organized at the time of the assassination (I think largely by Lane) to inquire into the fact of the assassination. Burton is a fine young man, a student at UCLA. Met him last December. If the official student-body thing doesn't go through and if there are no other speaking engagements offered, they would arrange a meeting. They would not attract as much attention, for they are not impartial, having from the beginning claimed injustice.

However, if all the time is not taken up by radio-TV, this forum would be better than none. I could still invite Liebeler, still have the empty chair for him if he doesn't show.

Best,
